NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three-month periods ended September 30, 2007 and 2006

1. Basis of Presentation

The accompanying unaudited consolidated financial statements do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. Accordingly, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto of ASB Financial Corp. (the "Corporation") included in the Annual Report for the year ended June 30, 2007. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the financial statements have been included. The results of operations for the three-month period ended September 30, 2007, are not necessarily indicative of the results which may be expected for the entire fiscal year.

2. Principles of Consolidation

The accompanying consolidated financial statements include all of the accounts of the Corporation, American Savings Bank, fsb ("American"), ASB Community Development Corp. and A.S.L. Services, Inc., American's wholly-owned subsidiaries. All significant intercompany items have been eliminated.

3. Critical Accounting Policies

Certain of the Corporation's accounting policies are important to the portrayal of the Corporation's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Facts and circumstances which could affect these judgments include, but without limitation, changes in interest rates, changes in the performance of the economy or changes in the financial condition of borrowers. Management believes that its critical accounting policy focuses primarily on determining the allowance for loan losses. This critical accounting policy is discussed in detail in the Annual Report to Shareholders for the year ended June 30, 2007 in Note A of the Notes to Consolidated Financial Statements under "Allowance for Loan Losses." If management were to underestimate the allowance for loan losses, earnings could be reduced in the future as a result of greater than expected net loan losses. Overestimations of the required allowance could result in future increases in income, as loan loss recoveries increase or provisions for losses on loans decrease.

For the three-month periods ended September 30, 2007 and 2006

4. Earnings Per Share

Basic earnings per common share is computed based upon the weighted-average number of common shares outstanding during the period less shares in the ASB Financial Corp. Employee Stock Ownership Plan (“ESOP”) that are unallocated and not committed to be released. At September 30, 2007, all ESOP shares have been allocated and released. Diluted earnings per common share include the dilutive effect of all additional potential common shares issuable under the Corporation’s stock option plan. The computations are as follows:

For the three months ended September 30,	2007	2006
Weighted-average common shares outstanding (basic)	1,590,522	1,594,198
Dilutive effect of assumed exercise of stock options	<u>2,759</u>	<u>5,979</u>
Weighted-average common shares outstanding (diluted)	<u>1,593,281</u>	<u>1,660,177</u>

5. Stock Option Plan

During fiscal 1996 the Board of Directors and shareholders adopted the ASB Financial Corp. 1995 Stock Option and Incentive Plan (the “Plan”) that provided for the issuance of 225,423 shares, as adjusted, of authorized but unissued shares of common stock at fair value at the date of grant. In fiscal 1996, the Corporation granted 197,521 options which have an adjusted exercise price per share of \$7.64. The number of options granted and the exercise price have been adjusted to give effect to the return of capital and special dividend distributions paid by the Corporation. The Plan provides that one-fifth of the options granted became exercisable on each of the first five anniversaries of the date of grant.

The Corporation accounts for the Plan in accordance with SFAS No. 123, “Accounting for Stock-Based Compensation,” which contains a fair value-based method for valuing stock-based compensation that entities may use, which measures compensation cost at the grant date based on the fair value of the award. Compensation is then recognized over the service period, which is usually the vesting period. Alternatively, SFAS No. 123 permits entities to continue to account for stock options and similar equity instruments under Accounting Principles Board (“APB”) Opinion No. 25, “Accounting for Stock Issued to Employees.” Entities that continue to account for stock options using APB Opinion No. 25 are required to make pro forma disclosures of net earnings and earnings per share, as if the fair value-based method of accounting defined in SFAS No. 123 had been applied.

For the three-month periods ended September 30, 2007 and 2006

5. Stock Option Plan (continued)

The Corporation applies APB Opinion No. 25 and related Interpretations in accounting for the Plan. Accordingly, no compensation cost has been recognized for the Plan. Had compensation cost for the Plan been determined based on the fair value at the grant dates for awards under the Plan consistent with the accounting method utilized in SFAS No. 123, the Corporation's net earnings and earnings per share for the three-month periods ended September 30, 2007 and 2006, would have been reported as the pro forma amounts indicated below:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain statements contained in this report that are not historical facts are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms "anticipates," "plans," "expects," "believes," and similar expressions as they relate to ASB or its management are intended to identify such forward looking statements. ASB's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services.

Discussion of Financial Condition Changes from June 30, 2007 to September 30, 2007

At September 30, 2007, the Corporation's assets totaled \$209.7 million, a decrease of \$1.9 million, or 0.9%, over total assets at June 30, 2007.

Cash and cash equivalents decreased by \$4.2 million, or 52.4%, from June 30, 2007 levels, to a total of \$3.8 million at September 30, 2007. Available-for-sale securities and certificates of deposit totaled \$25.1 million at September 30, 2007, an increase of \$1.4 million, or 6.0%, from June 30, 2007 levels. Maturities and discount accretion related to investment securities totaling approximately \$633,663.

Loans receivable increased by \$915,000, or 0.5%, during the three-month period ended September 30, 2007, to a total of \$170.8 million. Loan disbursements amounted to \$10.6 million for the three months ended September 30, 2007, and were partially offset by principal repayments of \$9.7 million. During the three months ended September 30, 2007, loans originated consisted of \$6.7 million of loans secured by one- to four-family residential real estate, \$652,000 of loans secured by nonresidential real estate, \$2.1 million of commercial loans and \$1.0 million of consumer loans

The allowance for loan losses totaled \$1.5 million at September 30, 2007, an increase of \$8,000, or 0.5% over the balance at June 30, 2007. Nonperforming and nonaccrual loans totaled \$1.9 million at September 30, 2007, an increase of \$964,000, or 49.7% from the total at June 30, 2007. The allowance for loan losses represented 79.9% and 158.1% of nonperforming loans at September 30, 2007 and June 30, 2007, respectively. At September 30, 2007, nonperforming loans consisted of \$1.1 million in one- to four-family residential real estate loans and \$577,000 in nonresidential real estate, consumer and other loans. Management believes such loans are adequately collateralized and does not expect to incur any losses on such loans. Although management believes that its allowance for loan losses at September 30, 2007, was adequate based upon the available facts and circumstances, there can be no assurance that additions to such allowance will not be necessary in future periods, which could adversely affect the Corporation's results of operations.

Deposits totaled \$167.7 million at September 30, 2007, a decrease of \$3.3 million, or 2.0%, from June 30, 2007 levels. The decrease in deposits was due primarily to maturities of brokered deposits.

ASB Financial Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Discussion of Financial Condition Changes from June 30, 2007 to September 30, 2007 (continued)

Federal Home Loan Bank advances increased by \$355,000, or 1.7%, during the three month period ended September 30, 2007. Advances amounted to \$400,000 for the three months ended September 30, 2007, and were offset by repayments of \$45,000. The proceeds from the advances were used to fund new loan originations.

Shareholders' equity totaled \$17.6 million at September 30, 2007, an increase of \$232,000, or 1.3%, from the June 30, 2007 level. The increase was due to net earnings of \$348,000, a \$166,000 net increase in unrealized gains on securities \$6,000 from the issuance of shares under the Company's stock option plan and was partially offset by dividends on common shares totaling \$288,000. Dividends totaled \$.18 per share for the three months ended September 30, 2007.

American is required to meet minimum regulatory capital requirements promulgated by the Office of Thrift Supervision ("OTS"). At September 30, 2007, American's regulatory capital exceeded the minimum capital requirements.

Comparison of Operating Results for the Three-Month Periods Ended September 30, 2007 and 2006

General

Net earnings totaled \$348,000 for the three months ended September 30, 2007, an increase of \$3,000, or 0.9% from the same period in 2006. This was due to an increase of \$48,000 in other income and decreases of \$30,000 in the provision for losses on loans and \$34,000 in the provision for federal income taxes, which were partially offset by a decrease of \$9,000 in net interest income and an increase of \$100,000 in general, administrative and other expense.

Net Interest Income

Interest income on loans increased by \$173,000, or 6.1%, for the three months ended September 30, 2007, compared to the 2006 period. This increase was due primarily to a \$5.1 million, or 3.1%, increase in the average portfolio balance outstanding period to period and an increase in the weighted-average yield of 20 basis points to 7.04% for the 2007 period. Interest income on available for sale securities increased by \$50,000, or 18.9%, due primarily to a 31 basis point increase in the weighted-average yield, to 4.34% for the 2007 period and a \$2.7 million, or 10.3%, increase in the average balance of the related assets outstanding period to period.

Interest expense on deposits increased by \$325,000, or 23.9%, for the three months ended September 30, 2007, compared to the same period in 2006. This increase was due primarily to a 49 basis point increase in the weighted-average cost of deposits, to 3.96% for the three months ended September 30, 2006 and a \$13.3 million, or 8.5%, increase in the average balance of deposits outstanding period to period. Interest expense on borrowings decreased by \$93,000, or 26.6%, due to a 20 basis point decrease in the average cost of borrowings during the period and a \$6.6 million, or 23.3%, increase in the average balance outstanding. The increase in the yields on interest-earning assets and the costs of interest-bearing liabilities was due primarily to the effect of increases in interest rates in the economy.

As a result of the foregoing changes in interest income and interest expense, net interest income decreased by \$9,000, or 0.6% compared to the same period in 2006. The interest rate spread decreased to 2.60% for the three months ended September 30, 2007, from 2.76% for the 2006 period, while the net interest margin decreased to 2.76% in the 2007 period, compared to 2.89% in the 2006 period.

ASB Financial Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Comparison of Operating Results for the Three-Month Periods Ended September 30, 2007 and 2006 (continued)

Provision for Losses on Loans

American charges a provision for losses on loans to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical experience, the volume and type of lending conducted by American, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to American's market area, and other factors related to the collectibility of American's loan portfolio. The Corporation recorded a provision for losses on loans totaling \$30,000 during the three months ended September 30, 2007, a decrease of \$30,000, or 50.0%, from the comparable three-month period in 2006. The decrease in the provision during the 2007 period was primarily influenced by the balance in the allowance for losses on loans in relation to the loans outstanding. There can be no assurance that the loan loss allowance will be adequate to absorb losses on known nonperforming loans or that the allowance will be adequate to cover losses on nonperforming assets in the future, which could adversely affect the Corporation's results of operations.

Other Income

Other income totaled \$312,000 for the three months ended September 30, 2007, an increase of \$48,000, or 18.2%, from the same period in 2006. The increase was due to a decrease of \$12,000 in loss on sale of real estate owned and a \$36,000 increase in other operating income, primarily derived from increased ATM transaction fees, income from bank owned life insurance and other charges.

General, Administrative and Other Expense

General, administrative and other expense totaled \$1.2 million for the three months ended September 30, 2007, an increase of \$100,000, or 8.8%, over the same period in 2006. This increase was comprised of increases of \$53,000, or 8.8%, in employee compensation, \$22,000, or 17.1%, in data processing costs and \$29,000, or 9.1%, in other operating expense, which were partially offset by a decrease of \$4,000, or 4.4% in occupancy and equipment. The decrease in occupancy and equipment was due to lower expenses due to no new branches being opened in the current period. The increase in data processing was due primarily to rising vendor costs. The increase in other operating expenses was due to increases in franchise tax, office supplies and other expenses. The increase in compensation and benefits was due to increased staffing levels associated with one new branch and normal merit increases.

Federal Income Taxes

The provision for federal income taxes totaled \$68,000 for the three months ended September 30, 2007, a decrease of \$34,000, or 33.3%, compared to the same period in 2006. The effective tax rates were 16.3% and 22.8% for the three-month periods ended September 30, 2007 and 2006, respectively.
